## Additional Services for your satellite phone

International calling rates apply to voice calls to many satellite phones. Depending on your cellular or PSTN carrier, these rates can be \$5 to \$10 per minute. VOCO dramatically lowers the cost of these calls and allows you to affordably call any Iridium phone via a local number. Calls to this

VOCO local number are automatically routed to your satellite phone wherever it is in the world, then billed at a fixed per minute basis rather than the extreme rates long distance carriers will charge persons attempting to speak with you.

Yes, please add VOCO calling to my satellite plan for \$25 per month plus calls.

OCENS, Inc. Satellite Airtime Services Terms & Agreements

1. Availability of limited service: Service is generally available to satellite terminals equipped for this service when within the satellite footprint. Service is furnished to Customer or Customers authorized user. A telephone number may not appear in more than one terminal. Customer has no property right in such number. OCENS reserves the right to assign, designate, or change such number, when, in its sole discretion, such action is reasonably necessary in the conduct of business;
2. Voice and Data Transmission Use and Dropped Calls: Due to the technical nature of data setups and the inherent sophistication of voice and data transmission through a variety of satellites, systems and networks, OCENS makes no representation as to the success of voice and data calls through the system. Customer agrees that all voice and data call attempts regardless of ultimate successful transmission and termination will be paid for and no credits will be given in the event of disputes of this nature. Along with potential incorrect use (i.e., next to a building/obstruction), satellite systems have inherent flaws and anomalies that can create dropped calls of either voice or data nature. Dropped calls will not be credited. OCENS can provide data setup technical support beyond the normal provided setup instructions at an additional charge. Please consult with OCENS sales representative for further details;
3. Customer agrees to remain as a subscriber of the service for at least the Minimum Term or Duration associated with the airtime plan they have chosen in this service agreement. Customers terminating their service prior to the completion of any Minimum Term identified in the subject service agreement are responsible for payment of the balance of the monthly fees still pending on the contract and any other early termination penalties applied by the airtime provider;
4. This service agreement cannot be assigned without the written consent of OCENS. OCENS reserves the right to terminate this agreement at any time during the contract period;
5. Contractual Limitations: During the contract period, customer may change their pricing plan to a higher bundle (more megabytes or minutes) free of charge but in doing so will renew the applicable minimum contract period. Megabytes or minutes available in the new plan for the remainder of the upgrade month will be pro-rated based on the number of days remaining in that calendar month. If the upgrade occurs within a month, no credit will be given towards the previously active plan's service or consumption fees;
6. **Account activation, renewal and deactivation: Accounts activated within a given month are billed on a pro-rated basis for the activation month using the number of days remaining in that activation month. Deactivated accounts are NOT pro-rated by the date of deactivation within a calendar month and full month payments of the postpaid monthly fee are due regardless of date of deactivation in the subject month.**
  - a) **Account deactivation request: Airtime accounts are automatically renewed on their presently active account service plan unless a written request for deactivation (or request to be moved to standby, see 6b below) is received by OCENS by no later than the 25th day of the deactivation month. Such written confirmation from an account holder specifying that they desire that their account be deactivated must be sent to admin@ocens.com. Communication should specify the desired Deactivation Date, and the SIM or MSISDN number of the subject account. If all terms under which the airtime sim was originally activated have been met by the requested Deactivation Date and all outstanding fees are paid, OCENS will complete the requested deactivation of the airtime account no later than at the calendar month end.**
  - b) **Active airtime accounts moved to Standby status: Airtime accounts are automatically renewed on their presently active account service plan unless a written request that the account be moved to standby (or deactivated, see 6a above) is received by OCENS by no later than the 25th day of the subject month. Such written confirmation from an airtime account holder specifying that they desire that their airtime account be moved to Standby must be sent to admin@ocens.com. Communication should specify the desired month when Standby status is to start and the SIM or MSISDN number of the subject account. If all terms under which the airtime sim was originally activated have been met by the requested Standby Date, OCENS will complete the requested move to Standby no later than at the calendar month end.**

Broadband service call-outs:

## a) Broadband Usage and Suspension Alerting

OCENS will set usage and suspension alerts on your account notifying us of data consumption by your terminal. If you would like to receive those alerts as well, please provide here the email address of a Point-of-Contact (not along with you on your vessel or remote trip) to which those alerts should be sent:

## b) FleetOne:

ii) Customer has reviewed FleetOne coverage areas and understands the reach of FleetOne Coastal service and its distinction from FleetOne Global coverage. Customer understands cross-ocean voyaging will require the use of a Global SIM card which is physically distinct from a Coastal SIM. Customer acknowledges that customer is solely responsible for vessel present and anticipated future location and for the activation and use of the FleetOne SIM card applicable to the subject location.

iii) FleetOne Automatic Activation/Always Accessible Service: Customer recognizes that optimum FleetOne service and cost options are only possible through the use of the OCENS Sidekick satellite Wi-Fi router and an enabled FleetOne automatic activation setting. If Automatic Activation is not enabled, customer will incur Inmarsat minimum connect fees for which they are financially responsible with each email, message, position or weather transfer.

7. Invoicing and Guarantee of Payment of Services: OCENS will invoice customer monthly for pending services if prepaid accounts or recurring charges and for services/ minutes used if post-paid accounts. Invoices shall be paid by credit cards. Customer understands that they are responsible for ALL AIRTIME CHARGES, including but not limited to direct airtime, long distance and roaming charges (if applicable) and charges for any customer elected, value-added services (when available). Payment must be made in US dollars. Customer requests for direct billing are subject to credit approval and may be subject to required deposits and/or direct payment by credit card or a guarantee authorized against a valid accepted credit card. OCENS reserves the right to change airtime rates at any time. Minimum billable volume is 0.001 MB;
8. Airtime Reserve – OCENS shall monitor airtime usage by Customer with this equipment during the term of the use. Should airtime usage by Customer exceed US\$2500 in any seven day period, customer grants to OCENS the authority to charge such usage to customer's credit card immediately and, further, to place an additional US\$2500 in reserve, via credit card payment, against future usage.
