

Inmarsat Fleet One from OCENS

Flexible, Affordable Broadband to Connect You Faster at Sea

Tired of slow satellite phone connection speeds?

The Inmarsat Fleet One is the best, entry-level maritime broadband option for accelerating your at-sea communications. **Perfect for smaller vessels and seasonal travelers**, the Fleet One is easy to set up and allows for affordable month-to-month service contracts.

THE OCENS DIFFERENCE

“We do business with a wide variety of companies and find that consistent excellence is very, very rare. With OCENS, there doesn't seem to be ‘good days’ and ‘bad days.’ Every day is excellent.”

- M/V Ocean Explorer

- ✓ Retrieve weather data, check your email, call home, and get updated charts – all through one device.
- ✓ Boost the performance of your at-sea internet connection.
- ✓ Choose from affordable month-to-month airtime plans that fit your browsing habits and budget.
- ✓ Enhance your safety at sea and keep in touch with your contacts back home.
- ✓ Access the OCENS suite of satellite-optimized communication apps.

*Because staying connected
should be easy.*

Fleet One – Full-featured Broadband

High-performance global connectivity at a price you can afford

Fleet One is specifically designed to meet the low data usage demands of occasional or seasonal users when they move out of Wi-Fi or GSM coverage areas. **OCENS offers flexible airtime plans to put satellite broadband in the reach of small commercial or leisure vessel owners.** Best suited for pleasure sail and power, workboats, and fishing vessels under 100'.

Fast

Simultaneous 4 Kbps voice and 100 Kbps data (increasing to 150 Kbps in 2019), plus standard 3G SMS messaging.

Compact

Small and lightweight to fit your pleasure craft or small workboat, with an 11-inch, 9-pound antenna.

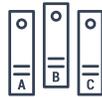

Compatible

Works in conjunction with Sidekick to provide onboard Wi-Fi so your whole crew can access weather, email, text messages and more.

Intuitive

Easy to install and use, with out-of-the-box plug-and-play antenna and below-deck unit configurations using standard 12v DC and ethernet connectors.

Flexible

With a wide variety of airtime plans, purchase and rental options, and a minimum 1-month term, Fleet One can be used year-round or seasonally to fit your needs and budget.

Reliable

Provides unrivaled reliability, even in inclement weather, on an L-band network with an average availability of 99.9%.

Better Safety at Sea

Rely on OCENS single-call technical support to get answers right when you need them.

Free 505 emergency calling that directs a straight through to a Maritime Rescue Co-ordination Center (MRCC), no matter how bad the weather conditions.

Ready for faster internet at sea?
