******WARNING******

This terminal is capable of making high speed (broadband) Internet connections that can result in significant bills for satellite airtime if usage is not monitored and controlled. Use caution when connecting this terminal to a computer network that may request or search for Internet access (e.g. Microsoft Update). This could result in the network utilizing the terminal to access the Internet. If you have ANY questions about connecting your terminal to a network, contact a computer network specialist.

Customer Initials: (_____) I have read & understand this warning. I understand the potential for significant airtime use and bills through this terminal.

I recognize that billing rates for voice calls and data connections are substantially higher when using the Fleet One service Out-of-Region than when the service is used In-Region. I understand that no notification is or will be provided by OCENS or Inmarsat of movement of Customer's vessel from an In-Region to an Out-of-Region location or vice versa. I assume complete responsibility for the determination of the region of vessel's operation and for the movement of vessel In-Region, Out-of-Region and between regions and any and all airtime expenses engendered by operation in those regions.

International calling rates apply to voice calls to an Iridium phone. Depending on your cellular or PSTN carrier, these rates can be \$5 to \$10 per minute. VOCO dramatically lowers the cost of these calls and allows you to affordably call any Iridium phone via a local number. Calls to this VOCO local number are automatically routed to your Iridium phone wherever it is in the world, then billed against your Iridium service at a fixed per minute basis rather than the extreme rates long distance carriers will charge persons attempting to speak with you.

Yes, please add VOCO calling to my Iridium plan for \$10 per month plus calls.
