## Additional Services for your Iridium GO!

International calling rates apply to voice calls to an Iridium phone. Depending on your cellular or PSTN carrier, these rates can exceed \$10 per minute. VOCO dramatically lowers the cost of these calls and allows you to affordably call any Iridium phone via a local number. Calls to this VOCO local number are automatically routed to your Iridium phone wherever it is in the world, then billed against your Iridium service at a fixed per minute basis rather than the extreme rates long distance carriers will charge persons attempting to speak with you.

Yes, please add VOCO calling to my Iridium plan for \$10 per month plus calls.

## SpotCast

No matter where you find yourself on land or sea SpotCast will work through your SMS-capable satellite phone to provide weather information to you. SpotCast is designed specifically for satellite phones and rapidly delivers well-crafted multi-period weather forecasts across several weather variables.

Please add the following SpotCast weather report service to my Iridium plan (valid for Iridium 9575 and Iridium GO! only):

24hr forecast (\$60 per year)

48hr forecast (\$70 per year)

72hr forecast (\$80 per year)

Please include offshore wave and swell information for an additional \$2 per month.

SnapTrack is OCENS response to the requests of many of our customers for a clean and simple solution to the tracking question. SnapTrack shortens the path from where you are in even the most remote of locations to a screen that captures

the 'where' of your wanderings. SnapTrack is compatible with the Iridium 9575 and GO! and other devices.

Add SnapTrack service for \$10 per month
